Summary

Web Product Developer proficient in Ruby on Rails, with good knowledge in Elixir and Phoenix framework, experienced in working with agile teams, in various startup companies. Eager to learn new trends, looking for a challenging position, where my skills can be enhanced and utilized efficiently. Had few own ideas, tried building my own projects in Ruby on Rails. Learnt Elixir and Phoenix via pet projects.

Work experience

COMCAST INDIA ENGINEERING CENTER (CIEC)
DEVELOPMENT ENGINEER LEVEL 3 - CHENNAI

APRIL 2020 - PRESENT

Technologies: Ruby on Rails, MySQL, HTML, JavaScript, Ajax and CSS, Azure Active Directory, Enterprise applications, Rally, Jira, Trello, Gerrit, Git, Jenkins, AWS S3, SES, Route53

Projects: Rdk Portal and Access Portal, both are in house application.

Rdk Portal eases deployment activities for our employees. They use our platform to generate report, manage build image configuration, Nightly Builds, deploy it to respective devices, device configuration, generate reports, download images, Gerrit repositories analytics and other service jobs. Access Portal manages user access to groups, group creation and other Apis for Azure Active Directory.

Main responsibilities:

- Developing, maintaining, scaling and optimizing the project.
- Building API endpoints to be used by other applications/services.
- Refactoring code base and mentoring fellow teammates.
- Lead developer in Access Portal.

Major achievements:

- Redesigned couple of functionalities to improve its performance.
- Added SSO and migrated from Ldap to Azure Active Directory and related apis.
